### Honey sample

	sample 1	sample 2	sample 3
Country of origin			
Type of honey			
Batch			
The actual quantity of the batch of honey			
Year of production			

- I declare that the sent (brought) honey samples were gathered by my bees in the area of \_\_\_\_\_ (pasture area, for foreign beekeepers, the country of origin of the honey).
- I do not use antibiotics in my beekeeping.
- I treat varroa with registered or authorized means according to the manufacturer's and veterinarian's instructions, and in doing so follow the guidelines of good beekeeping practice.
- Honey is not older than two years. I have at least 25 kg of the same batch in stock.
- In the event that I reach one of the first three best-rated honeys, I will provide 3 kg of honey from the same batch and I agree to the performance of additional physical-chemical and microscopic analyses and a field visit of my beekeeping. In case of providing untrue data and analysis results not in accordance with the legal regulations, I will cover the incurred costs of analysis myself, and the honey sample will be excluded from the evaluation.
- I agree to the publication of personal data (name, surname, place) and the results of the sensory assessment of honey.

In \_\_\_\_\_, day \_\_\_\_\_
